NASEERUDDIN SHAIK

Software Engineer – Backend, Front-End & QA / Test Automation

Thornton Heath, London, UK (open to relocate) | +44 7343 032449 | naseer3504581@gmail.com
linkedin.com/in/naseeruddin-shaik-7a3104249 | github.com/Naseer7117 | naseeruddin-shaik.vercel.app

PROFESSIONAL SUMMARY

Software Engineer with one year of professional experience developing, testing and supporting enterprise applications used by **500,000+ users**. Built **24+ production RESTful APIs** with Java 17 and Spring Boot, modelled relational data in SQL Server and PostgreSQL, and delivered changes through CI/CD pipelines in an Agile team. Strong test-automation and QA background – automated business-logic testing with Selenium to save the team **11+ hours per week**. Currently pursuing an MSc in Data Science and Analytics in the United Kingdom and **available for a full-time placement year from late January 2027**. Seeking developer, backend, front-end or QA / testing roles – eligible to work full-time (40 hours per week) in the UK under university endorsement, in line with UK visa regulations, and open to hybrid, remote or on-site work.

KEY SKILLS

Languages: Java 17, Python, JavaScript, TypeScript, SQL, C, C++, R, HTML, CSS
Backend & APIs: Spring Boot, Spring MVC, Hibernate, JPA, JDBC, JAX-RS, RESTful API design & development, microservices, Swagger / OpenAPI, Maven, Gradle
Databases: PostgreSQL, SQL Server, relational databases (RDBMS), SQL query writing, joins, stored procedures, data modelling, reporting
Testing & QA: Selenium WebDriver (Java & Python), JUnit, unit / integration / regression / end-to-end testing, API testing with Postman, test case design, defect reporting, debugging, root-cause analysis
DevOps & Cloud: CI/CD pipelines (GitLab CI), Git, GitHub, version control, build & deployment automation, Linux, AWS, Microsoft Azure
Data & Analytics: Python, Jupyter Notebook, pandas, NumPy, R / R Studio, statistics, machine-learning fundamentals, data visualisation, ETL / data cleaning
Methodologies: Agile, Scrum, sprint planning, code reviews, technical documentation, stakeholder communication, problem solving, troubleshooting

PROFESSIONAL EXPERIENCE

Application Developer — 2025

SIA Publishers and Distributors, Hyderabad, India

- Designed and built **24+ production RESTful APIs** (GET, POST, PUT, DELETE) with Java 17 and Spring Boot for an educational platform serving **500,000+ users**, using Hibernate and JPA for data persistence and documenting endpoints with Swagger / OpenAPI.
- Managed live PostgreSQL and SQL Server databases – writing and optimising SQL queries, validating data integrity, and resolving production user-data issues such as misplaced books and incorrect orders.
- Wrote SQL reporting queries that delivered accurate, real-time sales and production figures to the operations team and business stakeholders.
- Automated **12+ business-logic tests** with Selenium WebDriver and integrated them into GitLab CI/CD pipelines, saving the team an estimated **11+ hours of manual testing per week**; carried out unit, integration and regression testing, and verified APIs with Postman.
- Debugged and resolved backend defects and production incidents through log analysis and root-cause investigation, working in a fast-paced **6-person Agile / Scrum team** with sprints, code reviews and technical documentation.

Freelance Application Tester (QA) — 2024

Self-employed, Hyderabad, India

- Performed manual and automated functional, integration and regression testing across web and mobile applications, including REST API validation with Postman and backend data verification in SQL.
- Wrote and executed test cases covering application performance, cross-browser behaviour and user-interface alignment across releases.
- Documented defects with clear reproduction steps, tracked them to closure and retested fixes to confirm resolution.

PROJECTS

- **Test Automation Suite** (Selenium WebDriver, Java, Python, JUnit): repeatable functional, integration and end-to-end coverage for web and mobile applications, catching regressions before production and reducing manual test effort.
- **Developer Portfolio Platform** (React 19, TypeScript, HTML5, CSS3, GSAP): a responsive single-page web application built from scratch – typed component architecture, custom motion layer, accessible dark/light design system and a fully responsive mobile layout. EDUCATION

MSc, Data Science and Analytics — 2026 – 2028

University of Hertfordshire, United Kingdom

Sandwich degree including a full-time industrial placement year (January – September 2027). Python, Jupyter Notebook, R and R Studio, statistics and machine-learning fundamentals.

B.Tech, Computer Science Engineering — 2020 – 2024

Kallam Haranadhareddy Institute of Technology, India

Grade 7.8 / 10. Java, Python, C, C++, SQL, data structures and networking.

CERTIFICATIONS

Cisco – Cybersecurity (Virtual Internship), JavaScript Essentials, Networking & Packet Tracer | Microsoft Azure Administrator Training | AWS Cloud Foundations Labs | Salesforce Administrator & Developer (Trailhead) | Data Visualisation Virtual Internship – TCS iON

LANGUAGES

English (Professional, C1/C2), Urdu (Native), Telugu (Native), Hindi (Native), Tamil (Basic, A2).
